

Rakesh Meesa

+91 9063263151 | rakeshmeesa94@gmail.com | LinkedIn | GitHub

Education

Amrita Vishwa Vidyapeetham, Coimbatore B.Tech in Computer Science and Engineering (Artificial Intelligence), CGPA: 8.74	2024–2028
Alphores Junior College, Hyderabad Senior Secondary (XII), 97.9%	2024
Alphores High School, Karimnagar Secondary (X), CGPA: 9.8	2022

Technical Skills

Languages: Python, Java, JavaScript
AI: Scikit-learn, TensorFlow, SHAP, Machine Learning
Data Analysis: NumPy, Pandas, Matplotlib
Web Tools: HTML, CSS, Streamlit
Tools: Git, GitHub, VS Code
Core CS: Data Structures & Algorithms, Object-Oriented Programming
Concepts: Explainable AI (XAI), Computer Vision, Prompt Engineering

Projects

Fake Job Posting Detection using Explainable AI Jan 2026 – Mar 2026

- Developed a machine learning framework to detect fraudulent job postings using TF-IDF and credibility-based features.
- Evaluated Random Forest, SVM, XGBoost, LightGBM, and stacking ensemble models.
- Applied SHAP for explainability and built a Streamlit application for real-time prediction.

LEXGUARD — AI Rights & Contract Intelligence May 2026

- Engineered an AI-powered platform for identifying risky, exploitative, and ambiguous clauses in legal contracts.
- Designed a multi-agent architecture consisting of Auditor, Adversary, and Translator agents.
- Built and deployed the system using Streamlit, Gemini 2.5 Flash, Docker, and Google Cloud Run.

Facial Emotion and Sleep Detection with Audio Feedback Jan 2025 – Mar 2025

- Created a real-time assistive AI system using OpenCV and TensorFlow.
- Created a custom dataset and trained models for sleep pattern detection.
- Integrated gTTS and Pygame to provide voice-based feedback.

Merkle Tree-Based Transaction Storage System Aug 2025 – Nov 2025

- Implemented a secure transaction storage system using Merkle Trees and cryptographic hashing.
- Programmed transaction validation and integrity verification mechanisms.
- Enabled tamper detection through hierarchical hash-based verification.

Certifications

- Presented a research paper at ICRAIC2IT 2025 – International Conference on Recent Advancements in AI and Computational Intelligence.
- Google for Startups – Startup School: Prompt to Prototype.
- PromptWars Participant – Ascent 2026, Scaler School of Technology.
- GenAI-Powered Data Analytics Job Simulation – Tata Group (Forage).

Key Skills

Problem Solving	Communication Skills
Teamwork	Leadership
Time Management
